

**Charles University in Prague, Faculty of Science
Department of Experimental Plant Biology**

and

Czech Society of Experimental Plant Biology

welcome to the

9th International Conference of Ph.D. Students of Experimental Plant Biology

Fresh Insights in Plant Affairs

The conference is held under the patronage of the Dean of Faculty of Science Prof. RNDr. Bohuslav Gaš, CSc.

Conference is primarily intended for Ph.D. students – only presenters there are students.

***It gives opportunity to prepare for defence of your Ph.D. Thesis,
to try presentation in English at international conference,
yet in friendly environment!***

Conference though is not only for young scientists

- participate (without presentation) can anyone who is eager to get fresh insight,
remains young in their mind and wants to find new prospective collaborators
for their own research.

- *Come to meet coming generation of experimental plant biologists
and to make new professional contacts.*
- *Come to find new collaborators for a project or to a team!*

**Venue: 5–6th September 2011 (till 12h),
at Charles University in Prague, Faculty of Science.**

Language of the conference: English
